# Liberty Gap Cover

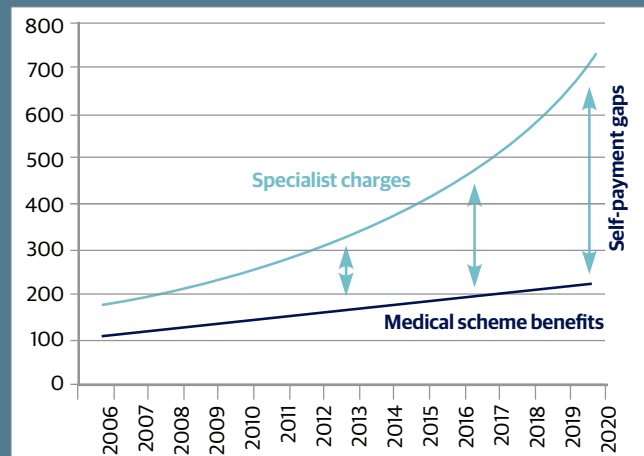

A problem faced by many medical scheme members is that surgeons, anaesthetists and other specialists often charge substantially more than medical scheme rates. When this occurs, the medical scheme member becomes liable to pay the medical expense shortfall (self-payment gap).

The table below shows some common medical procedures that lead to medical expense shortfalls. The Rand amounts are the portion of the costs that are not covered by the medical scheme and usually require payment by the member. These amounts are based on actual Gap Cover claims paid in 2017.

Examples of Medical Procedures	Medical Expense Shortfall Amount	Paid by Gap Cover
Natural Childbirth	R18 464	✓
C-Section Childbirth	R29 618	✓
Hernia Repair	R30 905	✓
Knee Replacement Surgery	R72 793	✓
Hip Replacement Surgery	R66 178	✓
Spinal Surgery	R76 658	✓
Cardiac Bypass Surgery	R107 069	✓
Cancer Treatment	R59 699	✓

The continued growth in the self-payment gap means that medical schemes now pay less than half of the average total specialist fees, leaving members to pay the shortfall amount.

The graph below shows how the self-payment gap has grown since 2006 and how this trend is expected to grow into the future.

## Protect your employees against medical expense shortfalls through either of Liberty's top-of-the-range Gap Cover options

**Liberty Universal Gap Cover** offers the most *comprehensive medical expense shortfall cover* along with additional financial protection for a wide range of health risks.

**Liberty Essential Gap Cover** offers affordable medical expense shortfall cover for the *most frequent shortfalls*, along with additional financial protection for selected health risks.

Both of these options are available to main members and dependants of all South African registered medical schemes. The policy automatically covers all the employee's family members, who are registered under the employee's medical scheme.

The cover offered by these policies can be further enhanced by taking our **Extended Cancer** and/or **Extended Dentistry Cover** options.

Please note that Liberty Gap Cover is not a medical scheme or a substitute for medical scheme cover. Liberty Gap Cover is top-up health insurance that provides cover for medical expense shortfalls that arise when medical schemes only cover part of the treatment and/or procedure costs. To qualify for this cover, the medical scheme's part payment must be paid from the medical scheme's hospital benefit or major medical benefit.

To assist in choosing the Liberty Gap Cover option that best suits your employees' needs, please study the summary of benefits to follow.

If you require further assistance and advice, please contact your Liberty Financial Adviser.

## Liberty Gap Cover offering as a compulsory versus a voluntary option

As an employer, you can provide Liberty Gap Cover to your employees on either a compulsory or a voluntary basis. These product offerings are different in the way you provide the benefit to your employees and the premiums charged. The table below highlights the difference between the two options.

	Compulsory Gap Cover	Voluntary Gap Cover
<b>Difference in cover</b>	You provide Liberty Gap Cover to a defined group of employees. Individual employees are therefore not able to choose whether or not they want the cover.	You inform your employees that Liberty Gap Cover will be made available to them at a preferential premium and each employee decides whether they would like the cover. We also offer internal marketing assistance where needed*.
<b>Paying premiums</b>	As the employer, you pay each employee's premium and then deduct it via payroll, usually on a cost to company basis. The premium will also be lower than that of the Voluntary Liberty Gap Cover.	Premiums are collected via payroll, although individual debit orders can also be arranged.
<b>Minimum number of employees</b>	The minimum size for both compulsory and voluntary groups to qualify for preferential rates, versus individual rates, is 10 employees.	

*\* Call Centre Assistance: where there is a voluntary group option, our call centre via Zestlife can assist with signing clients up either on an inbound or outbound basis. This eliminates the need to complete application forms. All calls are voice recorded and stored on our system.*

## Premiums and how to sign up for Liberty Gap Cover for Corporates

### Premiums

Premiums are calculated based on the average age and number of employees. In order to calculate a quote, we will need the following:

- Your company name
- The number of employees
- The average age of your employees, and
- Whether the group will be joining Liberty Gap Cover on a compulsory or a voluntary basis

### How to sign up for Liberty Gap Cover Corporate

To implement the group scheme, you will need to complete a schedule of your employees and certain of their details, as well as a debit order authorisation form. We will provide you with these forms once a decision has been made.

# Summary of policy terms and conditions

The following is a summary of the policy terms and conditions that apply to both Liberty Gap Cover options. For a full explanation of definitions, benefits, terms and conditions, please refer to the policy document, which is available on request.

## Waiting periods and pre-existing condition exclusion

No general or condition-specific waiting periods apply. However, no benefits can be claimed for a period of 12 months from the start date of cover in respect of medical conditions, for which in the 12 months before the start date of the cover, medical advice, diagnosis, care or treatment was received or would reasonably have been recommended.

Pregnancy before the start date of cover will be regarded as a pre-existing condition and any pregnancy or birth-related claims will be excluded for 12 months from the start date of the cover.

If prior to the start date of Liberty Gap Cover, a policyholder had cover under another Medical Expense Shortfall Policy, then the pre-existing condition waiting period will only be applied to the unexpired part of the pre-existing condition waiting period from the previous policy. The pre-existing condition waiting period will, however, apply for the full period of 12 months for any benefit not provided under the previous Medical Expense Shortfall Policy.

## General exclusions
